

thinLUX LED's RapidSPlice™ connectors for 20-22 gauge electrical wire are the ideal connectors for quickly making non-fail connections in the field. Each wire is secured by two blades and a 3-point latching clear cover. The connectors are constructed of tough polycarbonate. Add sealant to make them waterproof. Complete jobs faster and reduce service repairs for failed connections with RapidSPlice connectors.

Part No.	Description
RS-ZC10-2022-2	RapidSPlice™ Connector, 2-Way, for 20-22 gauge wire.

RS-ZC10-2022-3	RapidSPlice™ Connector, 3-Way, for 20-22 gauge wire.
